

Addendum No. 1 to Packet No. 18-18
Okemos Bridge Replacement – Environmental Assessment @ Programmatic Section 4 (f)
Evaluation

The following clarifications, modifications and/or revisions to the above project shall be considered a part of the original specifications:

1. Is this RFQ for selecting a consultant to prepare only the EA and Programmatic Section 4(f) Evaluation documents with the ultimate goal of obtaining a FONSI? This does not include preparing plans and specifications for the actual bridge replacement??

Yes, to both questions.

2. Regarding the subject RFQ, can you please clarify whether this work will include design phase services as well or if it is strictly limited to obtaining environmental clearance for the proposed bridge replacement? **Strictly limited to obtaining environmental clearance for the proposed bridge replacement.**
3. There is mention that the county will provide road design and alignments and there is discussion of the timeline including design within FY 2019 but the scope of work appears to be purely for environmental clearance. If this RFQ is strictly for environmental clearance, does the County intend to solicit design services in a separate RFQ? **Yes.**

Please acknowledge your receipt and understanding of the aforementioned Addendum by signing below and returning it with the submittal of your proposal.
